Education

10th Standard (SSLC) – Deeksha Vidya Mandir (State) **2023**
Percentage: 72%

2nd PUC – Shree Aurobindo PU College **2024**
Percentage: 70%

Bachelor of Engineering (B.E.) – Adichunchanagiri Institute of Technology **2025–2029**
CGPA: 5

Technical Skills

- **Programming Languages:** Java, C, Python
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures
- **Database:** MySQL
- **Tools:** Git, GitHub, Git Bash
- **Web Technologies:** HTML, CSS, JavaScript
- **Other Technologies:** AI Agents, GIS, Satellite Data

Soft Skills

- Problem Solving
- Analytical Thinking
- Leadership
- Teamwork
- Communication

Projects

1. IoT-Based Smart Dustbin

- Developed a smart dustbin using IoT technology to monitor waste levels and improve waste management.
- Used ultrasonic sensors with a microcontroller to detect the fill level of the dustbin.
- Enabled real-time waste-level monitoring and alerts to support timely garbage collection.

2. CropShield AI

- Developed a working prototype to monitor soil moisture, soil temperature, and environmental conditions.
- Used sensor-based monitoring to collect and analyze real-time information.
- Designed the system to support better crop and agricultural management.

3. Smart Parking System

- Developed a smart parking system to detect available and occupied parking spaces.
- Used sensors with Arduino/ESP32 to monitor parking-slot availability.
- Designed a web/mobile dashboard to display real-time parking availability and vacant spaces.
